**Ph. (402) 709-8282**

Mr. Dan “Ammo” Clevenger has over 20 years experience in the theater air control system as tactical crewmember, wing mission planning cell chief, time sensitive targeting cell chief, senior offensive duty officer, chief combat operations and air and space operations center director. Mr. Clevenger brings a wealth of real-world command and control experience from Operations DESERT FOX, ALLIED FORCE, NOBLE EAGLE and IRAQI/ENDURING FREEDOM, and from service and joint exercises. He also brings a wealth of experience from Joint Expeditionary Force Experiments 04/06/08. He has four years of analytical program management and modeling, simulation and analyses experience studying multi-million dollar weapon system studies such as the B-2 bomber, B-1 bomber upgrade, joint tacair electronic warfare, intelligence, surveillance and reconnaissance / strike trade-off, and Air Force Quadrennial Defense Review. Mr Clevenger analyzes current and future command and control systems to support global command and control systems development. His focus is on the USSTRATCOM lines of operations: Strategic/Nuclear Deterrence, Space Operations and Cyberspace Operations. He identifies gaps and develops and prioritizes requirements for the Integrated Strategic Planning and Analysis System (ISPAN) program, provides user training and demonstrations, develops exercises and experiments and assessment measures, and documents results in reports.
