

Steven "Woody" Sladky
Steven.Sladky@nsci-va.org
Ph. (757) 418-9078

Mr. Steve "Woody" Sladky joined National Security Cyberspace Institute in 2009 as a Subject Matter Expert and Liaison Officer representing the Air Force Research Lab at the United States Strategic Command (USSTRATCOM). He has over 20 years experience in theater airborne early warning, airborne command and control, carrier battle group logistics, and joint staff duties. He served as a Squadron Operations Officer, the Officer-in-Charge of a C-2 "Greyhound" Logistics Detachment to a carrier battle group, and as an Operational Test Coordinator and Operational Test Director. Mr. Sladky brings an abundance of operational command and control and battle group logistics experience from Operations DESERT SHIELD, DESERT STORM, SOUTHERN WATCH, ALLIED FORCE, NOBLE ANVIL, IRAQI FREEDOM, and JOINT TASK FORCE KATRINA. He has flown over 3400 hours in Naval aircraft and piloted over 300 carrier landings aboard 9 different aircraft carriers. He has recent experience as a Systems Analyst supporting the United States Joint Forces Command (USJFCOM) with developing and socializing the Net-Enabled Command Capability (NECC) System Training and Training Support Strategy within the USJFCOM Joint Capabilities Developer Directorate.

EDUCATION

1997 Master of Business Administration, University of West Florida
1994 Naval Aviation Safety Officer Course, Naval Post-Graduate School
1988 Bachelor of Science-Mathematics, United States Naval Academy
